INDEX	117
-------	-----

Amiga Hardware &

The Amiga 500

The Amiga 500 comes equipped with 512KB of RAM. Optionally, it can expand to 1 MB (with real time clock). The A500 is ideally suited to meet the needs of a wide variety of users who demand state-of-the-art computer performance, power and flexibility in a convenient and attractively priced package that features outstanding graphics and sound capabilities.

The A500 consists of the Main Unit and a separate power supply. The Main Unit includes a Motorola 68000 microprocessor, 512KB of RAM, a 3.5" floppy disk drive, a keyboard with 10 function keys and a numeric keypad, and a variety of connectors and ports through which a monitor and peripheral equipment (printer, modem, etc.) may be attached.

501 RAM EXPANSION CARTRIDGE

User-installable cartridge that adds 512KB of RAM to the Amiga 500. Contains a battery-backed real time clock and calendar.

520 VIDEO/RF MODULATOR

Allows the Amiga 500 to use a composite color monitor and/or standard television set as a screen display. Includes an RF cable, RF switch box and audio Y adapter.

Peripherals

The Amiga 2000

The Amiga 2000 has 1MB of RAM and is expandable to a total of 9 Megabytes. It is a powerful, versatile microcomputer that comes fully equipped to meet the stringent requirements of professional users. It has superlative graphics and sound capabilities as well as multi-tasking and is tailored to perform the most specific role while retaining the ability to perform general computing tasks.

The A2000 includes a Main Unit and a detachable keyboard. The Main Unit includes a Motorola 68000 microprocessor, 1 Megabyte of RAM, at least 1 3.5" floppy disk drive, internal expansion capability (for RAM, other microprocessors, video etc.) and connectors and ports for a monitor and a wide range of peripheral equipment.

2088 BRIDGEBOARD

Provides an 8088 co-processor with IBM® PC-XT™ compatibility for the A2000 allowing the A2000 to run IBM compatible software (MS-DOS 3.2) under Amiga control. Contains 512KB of RAM with interfaces for 1 internal and 3 external 5.25" floppy drives (daisy-chained). Also contains a Centronics PC compatible parallel port on the Amiga parallel port.

2090/2090A HARD DISK/SCSI CONTROLLER CARDS

20 megabyte Hard Drives provide the interface between A2000 and 2 ST506 compatible hard disks and up to 7 SCSI compatible disk devices. 2090A autoboots hard disk on power up (with optional V1.3 Kickstart ROM). Ideal interface between Amiga 2000 and industry-standard hard disks.

2052/2058 EXPANSION BOARDS

2052 expands the Amiga 2000 memory by 2 Megabytes. 2058 is a 2 Megabyte RAM expansion board expandable to 8 Megabytes. The card is supplied populated to 2Mb with sockets for additional memory devices. It is 6 Mb usable when a Bridgeboard is installed.

2010 3.5" INTERNAL FLOPPY DISK DRIVE

3.5" horizontal floppy disk drive with no external power supply. Reads an entire track at one time, supports fast data transfer rates, MFM read/write format 880KB formatted storage capacity.

Hardware & Peripherals (cont.)

AMIGA 1000

The Amiga 1000 system includes a detachable, full-size keyboard, built-in 3.5" floppy disk drive and two-button mouse. The 256K RAM is expandable internally to 512K and externally to 8 Megabytes. Superb graphics and sound capabilities including a color palette of 4096 colors, 4 voices in 9 octaves, high quality speech and high speed animation. Multi-tasking capabilities permit you to run up to 50 overlapping windows simultaneously!

1680 MODEM 1200 RS

High speed 1200 baud full duplex data communication over conventional telephone lines (Bell 212A compatible). Works with Commodore PCs and other IBM compatible computer, as well as the Amiga family. Full Hayes® compatibility. Includes Procomm® and AmigaTerm® terminal software. Clips neatly to the side of your computer and does not use a valuable slot.

1084S STEREO MONITOR

RGB composite color to maximize your video capabilities, high resolution, compatible with VCR and TV tuners as well as Commodore 64, 128, Amiga 500 and 2000 and Commodore PC computers. Now in stereo.

1060 SIDECAR

Provides IBM PC hardware and software compatibility for the A1000 allowing MS-DOS® software to run in 1 window while another software package runs in a different window. Contains its own 5.25" disk drive, 3 full-size expansion slots and connects to the Amiga expansion bus.

1020 5.25" EXTERNAL DISK DRIVE

Used with the 1060 Sidecar or pC Utility for IBM PC disk compatibility, the 1020 reads and writes disks in standard IBM PC format. Formatted capacity of 360KB.

1010 3.5" EXTERNAL DISK DRIVE

Add the A1010 to your Amiga system for faster program access, faster backups and increased data storage.

1300 GENLOCK

Allows you to combine your A1000 computer with a VCR camera to produce titles, captions and multi-layered special effects on tape, laser disk or other visual media.

1050 EXPANSION CARTRIDGE

Expands the A1000 to 512K. Easily installed behind the computer's snap-off front panel. No switch settings needed.

- Arcade-quality typing game
- Help Windows available for every stage of every lesson
- Over 15 colorful graphs display your typing progress

PHASAR: The Financial Manager

FNALY

Finally Technologies
25 Van Ness
San Francisco, CA 94102
(415) 564-5903

Lauded by AmigaWorld as the "hands down favorite" of financial management programs, PHASAR is both powerful and easy-to-use. It keeps track of multiple interacting accounts, provides easy savings and loan analyses, net worth, budgeting, helps prepare and even projects income taxes for the whole year. Complete documentation and extensive help screens make it one of the easiest financial programs to use. Built-in intelligence minimizes typing, leaving you more time to enjoy your money. It also keeps track of names and addresses and can remind you of special events such as birthdays and anniversaries.

GoldSpell 2.0, the spelling checker and corrector for the Amiga, quickly locates and displays all mistakes, suggests correct spellings, and permits you to correct on the spot. Optional Batch processing means GoldSpell can edit and list incorrect spellings in lengthy documents, without you having to be present. GoldSpell contains a comprehensive dictionary of over 90,000 words, and allows you to define additional words - limited only by memory. Dictionary scan and similar word search are built in. GoldSpell even evaluates the readability of your text. GoldSpell is compatible with most word processors, including WordPerfect and Textcraft Plus.

WordPerfect Library for the Amiga

WordPerfect
CORPORATION

WordPerfect Corporation
1555 N. Technology Way
Orem, UT 84057
(801) 227-5900

Suggested retail price \$129.00

Library's five integrated programs take full advantage of the Amiga's multitasking abilities. Programs include an appointment *Calendar* and a *Notebook* for creating data files. From Library's *File Manager*, you can delete, rename, print, or look at a file. The *Calculator* includes financial, programming, and scientific functions. A *Program Editor* is also included. WordPerfect Library is scheduled for release first quarter, 1988, and will run on the Amiga 500, 1000, and 2000.

Spreadsheets

Haicalc™

HAITEX

Haitex Resources
 208 Carrollton Park, Ste. 1207
 Carrollton, TX 75006
 (214) 241-8030

For only \$59.95 Haicalc gives you a powerful tool to project budgets, calculate expenses, prepare a financial statement or tackle any large numeric task.

Haicalc fully utilizes the Amiga Intuition user interface. You have the convenience of simple point & click selection to start from Workbench, pull down menu selections for commands, and economical use of your computer's memory—the program with blank spreadsheets uses only 165K. You harness the power of multitasking, multi-windowing, multiple fonts and styles with a maximum spreadsheet size of 9,000 by 9,000.

Release 1.9 adds X-Y, 3D Bar, Exploding Pie Charts and two-way dynamic linkage of data and charts. Other features include strong Database capabilities with sorts on any number of Fields; mouse, function keys, and control key command interfaces, multiple formatting of Cells dependent on calculation results, as well as written and spoken Cell Notes.

MaxiPlan Plus has all the features of MaxiPlan 500 with a Macro Language facility similar to that of Microsoft Excel. Includes print spooler, Lotus 1-2-3 Import and enhanced recalculation speed.

PageSetter's "intuitive" user interface makes page composition and layout easy. Use PageSetter to mix text and graphics with complete flexibility of page design. Enhance your layouts with a variety of fonts, borders, and shadings. Import text or graphics from other programs, or create it with PageSetter's built-in text and graphics editors. Use any printer in Amiga Preferences. Create multi-page documents with polish and style.

PageSetter LaserScript provides more flexibility to PageSetter owners. This add-on module allows PageSetter pages to be positioned, rotated, sized and then printed on any PostScript laser printer.

The above documents were created with PageSetter. The left document was printed on a dot matrix printer, and the right was printed on a laser printer using PageSetter LaserScript.

Professional Page

Gold Disk Inc.

Requires 1 MegaByte
\$395 (US); \$525 (Canadian)

Professional Page integrates:

- full-featured wordprocessing
- precision typesetting
- bitmap and structured graphics
- page layout capabilities
- four color separation
- dot matrix support (including color)

With Professional Page text can be imported from other programs or created with the built-in on-screen WYSIWYG editor. It can flow automatically between different sections of a page even around graphic boxes. Size in five different magnification modes.

Typesetting features include automatic hyphenation, text styling, kerning, tracking, leading and baseline shifts. Graphics features include tools for creating and editing structured graphic lines, shapes and free drawn art. Imports graphics from programs like Aegis Draw. Outputs to Postscript laser printers and typesetters as well as Amiga preferences dot matrix printers (including color).

Over 300 Fonts in 3 packages, ready to use with many of the programs you may already own.

Created by these professional artists using Calligrapher:

Desktop Publishing

Shakespeare™

INFINITY

Infinity Software
1144 65th St., Suite C
Emeryville, CA 94608
(415) 420-1551

Shakespeare brings affordable color desktop publishing to all Amiga users. It lets you mix text and graphics using the standard Amiga interface of pull-down menus, icons, and windows. Shakespeare offers full on-page editing, cut & paste functions, soft styles, a WYSIWYG display, and support for all Amiga fonts including ColorFonts and all IFF graphics. Your finished document can be printed to any Preferences printer including color printers, or it can be printed to any Postscript compatible printer. The world is not limited to black & white, why should you be?

City Desk 2.0

MICROSEARCH
"Your Personal Computer Store"

Microsearch
9896 S.W. Freeway
Houston, TX 77074
(713) 988-2818

Suggested retail: \$199.95

City Desk 2.0 includes dedicated support for PostScript, HP LaserJet+, 24 pin, and Preferences printers. It has simplicity for novice Amiga users as well as power tools for the professional user — like a full screen text editor, and comprehensive graphics editor capable of drawing circles. Users can view and edit multiple pages at a time, then automatically reflow the text, even around irregular graphics. City Desk has the flexibility to import text from WordPerfect, Scribble or any ASCII file. Use the embedded typesetting commands to make font and format changes to any amount of text, even a single letter, anywhere on the page.

Desktop Publishing

Publishing Partner Professional™

Soft-Logik Publishing Corporation
11131 South Towne Square, Suite F
St. Louis, MO 63123
(314) 894-8608

Retail price: \$199.95

Desktop Publishing is for everyone whether you own a dot matrix or laser. We use scalable font technology meaning you get smooth characters at any point size — no jaggies — with or without Postscript. It's easy to use for beginners but contains leading, kerning, hyphenation, spell checking, text flow and runaround, grouping, undo, imports of text and graphics, color separations, drawing tools, search and replace, with control down to 1/3600"! Includes six fonts. Memory requirements: 512K.

Photo-Scan

Graphic Scanner-Printer

**Skyles
Electric
Works**

231 E South Whisman Road
Mountain View, CA 94041
Telephone (800) 227-9998
or (415) 965-1735

Photo-Scan adds high speed scanning of pictures and drawings with photocopier quality and resolution to your *Amiga*. *Photo-Scan* adds a high speed thermal graphic printer with photocopier quality and resolution to your *Amiga*. *Photo-Scan* is now available at an amazingly low low price.

Photo-Scan is complete in 16" wide, 14 1/2" deep by 4 1/2" high package. Nothing else to add, no lights, no camera, just insert your original document and scan. *Photo-Scan* inputs and outputs pictures, drawings, text or anything else up to 8 1/2" by 11" using your *Amiga*'s IFF format. Please write or call for more information.

Graphics/Video

Aegis VideoTitrer™

AEGIS

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

A boon to low-end video post production, VideoTitrer supports "poly" fonts which can be distorted in several ways and all Amiga Fonts. Choose from many styles including shadows, outlines, highlights, embossing and a lot more for both the Amiga and "poly" fonts. You can also bring in IFF windows and pictures for use as backdrops which you can also distort. Also included is VideoSEG™ (Video Special Effects Generator) which lets you put everything in an adjustable slide show with many different kinds of fades, wipes and scrolling. VideoTitrer supports all screen resolutions including overscan plus the ability for Half-Brite (64 colors on the screen at once, the bottom 32 being half as bright).

Aegis VideoScape 3D™ *Interactive 3D Animation System*

AEGIS

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

From animated movies to company logos, VideoScape 3D provides the solution to fast, spectacular 3D animation. It comes with a variety of options including selectable camera viewpoint, focal zoom-length and light source with both diffused and specular light surfacing. It works in four screen resolutions with full OverScan and uses IFF files (including HAM) for both foregrounds and backgrounds. Other features include transparency, reflection, metamorphosis, and the PlayANIM™ program for real-time playback.

Use Modeler 3D to create 3D objects for use in animation programs like VideoScape 3D™ or as a modeling tool with products like Draw Plus.™ Either way, Modeler 3D™ provides a flexible, visually interactive, and easy-to-use format for building your objects. Polygons used for creating objects may have any number of points, and tools such as Flip, Merge, Lathe, and Extrude make manipulating them fast and efficient. Also included are Rotate, Translate, Scale, Mirror, Remap, Array, Set Center, and more. For fast, easy 3D object generation, go with Aegis Modeler 3D.

COMMODORE
AMIGA™

Commodore-Amiga, Inc.
1200 Wilson Drive
West Chester, PA 19380
(215) 431-9100

\$49.95 suggested retail

This powerful yet easy-to-use graphics and design program lets you create to your heart's content. You can choose any 32 colors from Amiga's total of 4096 colors. Bring your creations and imagination to life with animation and other special effects.

Graphics/Video

Analytic Art Studio™ 2.0

Crystal Rose Software
109 South Los Robles
Pasadena, CA 91101-2417
(818) 795-6664

A fractal art program that is fun, fast, and easy to use. Creates stunning pictures with beautiful colors. Explores the fractal worlds of the **Mandelbrot set**, **Julia sets**, **Henon plots**, and **Sierpinski gaskets**.

Includes three excellent post-processing programs you can use on your artwork from this and other graphics programs (IFF format). The **Spheres** program will map pictures on spheres or ellipsoids. The **3D** program will put artwork into any 3D perspective view with optional color-driven Z heights. The **Gallery** lets you add special effects like color animation, color evolution, and more.

Six programs in one well documented package — only \$59.95.

B-Paint

FNALY

Finally Technologies
25 Van Ness
San Francisco, CA 94102
(415) 564-5903

Suggested Retail \$39.95

B-Paint is a painting program for the Amiga that lets you draw in low, medium, or high resolution. Easy-to-use pulldown menus give you tools to draw simple or complex images, and B-Paint reads, stores and prints IFF files allowing you to use pictures created with other Amiga drawing programs as well. The full screen palette doubles as a sound synthesizer and lets you create a color coded keyboard! Best of all, the source code is included so you can use parts of the program in your own creations while learning the intricacies of programming your Amiga. At a price of only \$39.95, this represents one of the best values available for your Amiga.

1820 Gateway Drive
San Mateo, CA 94404

DeluxePaint® II

"Best Graphics Software of the Year"

"Best Creativity Software of the Year"

—Software Publishers Association

"... has a splendid user interface, mindlessly simple controls and—most important—is capable of rendering staggering images"

—Computing Now!

The most powerful paint program ever, with over 50 new features and improvements! Play with perspective, turn 2-D into 3-D with one click. Use any object as a "brush." Color cycling, gradient fill, anti-aliasing—it's all here! Generate logos, storyboards, comps, presentation graphics—the possibilities are endless. Look for the Deluxe Library™ of color clip-art disks: Art Parts Vol. 1, Art Parts Vol. 2, and Seasons & Holidays—with over 350 images you can use to enhance your work.

DeluxePrint™ II

ELECTRONIC ARTS

1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

All the tools you need to create cards, signs, banners, invitations, bumper stickers, even T-shirt iron-ons—now better than ever! Includes a new image and pattern editor with Deluxe Paint-like tools, a special "Preview" function to see your creation at actual scale, and a custom printer driver for better resolution and ability to print at any size. Choose from over 100 built-in images, use clip-art from the Deluxe Library art disks for import your creations from Deluxe Paint™ II. Then mix and blend up to 32 colors from the 4,096-shade palette, add a border, change a type font. Control the look of any layout of your text: move it, center it, flip it, box or blend it into a background image. It's like having your own typesetting and paste-up shop!

Graphics/Video

DeluxeVideo™

1.2

1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

Create your own videos with the first "desktop video" software. Animate sales presentations, embellish home movies with titles, rolling credits, and special effects. Now with overscan, faster frame rate and expanded RAM support. 27 special effects like wipes, fades, expansion and compression of images, rotations, strobes and multiple frame animation. Use music created with Deluxe Music Construction Set™ or with Instant Music™ to customize your creation! NOW - includes a FREE Video Post Production Kit with 17 new scene generators, 4 new wipes and 8 new songs.

Deluxe Music Construction Set™

Deluxe Music Construction Set is the first complete music construction tool — simple enough for a beginner, powerful enough for a musician.

- Complete MIDI compatibility. Produces MIDI output on 16 channels
- Complete music notation tools: triplets, slurs, beams, up to 8 staves with 2 tracks per staff, multiple time and key signatures in one song, on-screen player piano, easy transposition.
- Complete playback tools: see and hear notes before you write them. Control the dynamics, volume and tempo. Pick from 16 instruments and play styles (staccato and vibrato)
- Complete printing tools: prints sheet music with lyrics, guitar chords and special music symbols like trills, D.C., pedal marks and coda signs

1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

ComicSetter is a powerful learning tool that requires no drawing skill in order to create visually-exciting, action-packed, comics. A built-in library of characters, background scenes, and props, combined with ComicSetter's easy to operate user interface, will guide you into the uncharted universe of your imagination. Armed with a complete arsenal of drawing and paint tools, special comic book fonts, and a practically unlimited range of color, ComicSetter will help you create and alter characters as you command them through changing scenes and consequences. Enlist in the adventure.

Vista 3-D

*Mindware
International*

Mindware International
110 Dunlop St. W.
Box 22158
Barrie, Ontario, Canada L4M 5R3

Sugg. List \$149.95

VISTA 3-D's convenient icon interface and simple 3-D generating concept using three to six-sided facet building blocks allow one to quickly generate artistic 3-D effects in wire frame or full ray-trace mode. Lighting, in any of three modes, and the observer can be positioned anywhere to achieve the desired result. In addition to basic facet tools such as move, rotate, tilt, mirror and cyclic, the program provides unique tools such as wave, dome, funnel, arch, cylinder, sphere, cone, crevice together with a choice of five coordinate systems which provide unlimited creative possibilities.

PageFlipper Plus \$149.95

PageFlipper Plus

Developer's Kit \$299.95

Animate full-screen IFF images from any Amiga program at up to 60 frames/sec. in lo-res and 30 frames/sec. in medium and high-res. Effects include flips, color cycling, fades, wipes, dissolves, and mixed resolutions. Built-in script editor makes animation changes easy. Incremental image compilation allows quick insertion and deletion of animation frames. Choice of file compression techniques allows high compression of images. Supports ANIM format and all Amiga graphics modes including overscan and HAM.

Pro Video Plus is a professional video product and a titling program designed and developed by JDK Images who gave you Amiga's first professional character generator software. It features full-screen video (672 x 440), 16 colors per page, 16 fonts, multi-colored characters, automated background creation as well as advanced editing features. The product offers 90 effects, transitions and line definable moves, 100-2600 pages (memory dependent), keyboard interface and it imports IFF pictures (also memory dependent).

Price: \$219.95

Perfect Vision is a real-time frame grabber which captures black-and-white images with 16 grey scales from a camera or VCR in 1/60 of a second. This powerful tool also captures color pictures using color filters (supplied with Perfect Vision) or the Perfect Vision Color Separator (useable with most other digitizers). Perfect Vision generates 32-color or HAM pictures and supports 320 x 200 and 320 x 400 (interlaced) graphic modes.

Graphics/Video

TV*TEXT

ZUMA GROUP, INC.

Developed by
Zuma Group Inc.

Marketed by
Brown-Wagh Publishing

16795 Lark Ave, Suite #210
Los Gatos, CA 95030
(408) 395-3838

TV*TEXT is the perfect character generator for Amiga users creating graphic or video presentations. Choose from 9 high-quality typefonts (or any others on the Amiga), select the size, color and look you really want (drop or cast shadow, multicolored strobe, 3-D extrusions, rotated, centered, etc.), and presto - TV*TEXT draws it for you!

With complete IFF compatibility, TV*TEXT can improve the appearance of any DeluxePaint, Aegis Images or other graphic output. Create backgrounds, special effects and fantastic lettering in high or medium resolution with overscan support! For video buffs, TV*TEXT supports Genlock, NTSC and PAL.

TV*SHOW

ZUMA GROUP, INC.

Developed by
Zuma Group Inc.

Marketed by
Brown-Wagh Publishing

16795 Lark Ave., Suite #210
Los Gatos, CA 95030
(408) 395-3838

Make a professional video presentation with the Amiga and TV*SHOW. The player program will take any IFF screens, in any resolution, and flash them across the screen in more ways than you can ever imagine. Wipes, fades, reveals, pushes, cuts, fades, color cycling and object animation are some of the special screen effects available.

Build the script, test the script, change the script. It's so easy and fun because TV*SHOW uses the same type of wonderful user interface that has become a Zuma Group trademark. TV*SHOW supports Genlock, NTSC, PAL, overscanned screens and HAM screen transitions.

Now The Music Studio 2.0 has more than 15 significant new features. A few examples — direct MIDI in; multiple key signatures, tempos, and volumes anywhere in a piece; new digitized sound files; and a "Jukebox" to automatically play any selection of songs. The "Paintbox" lets novices make music instantly. You can also add lyrics and print your songs. These are serious composition and editing tools like ties, accents, repeats, and automatic transposition. Plus features experienced musicians demand like four tracks, the ability to adjust MIDI parameters, and a Wave Form Editor. The Music Studio 2.0 combines ease of use and simplicity with power and features for musicians at all levels!

The Music Studio™ 2.0

The music composition and editing tool, now with direct MIDI in!

Hotlicks

INFINITY

Infinity Software
1144 65th St., Suite C
Emeryville, CA 94608
(415) 420-1551

Hotlicks puts the world of computer music at your fingertips. Create your own compositions or rescore one of the classics. Powerful editing tools let you cut and paste single notes or sections of music, transpose sections up and down the scale, and choose from any of twenty instruments at one time.

Once you've got your masterpiece finished, you can add it to your collection of greatest hits. The Hotlicks Jukebox plays only the selections you choose, and it doesn't need quarters. You create the list of selections, and store them to disk. Choose single-play or repeat — you're the DJ.

Music/Sound

Aegis AudioMaster™

Digital Sampling/
Editing Software

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Edit captured sounds or create custom instruments with the best in sampled sound editors. AudioMaster works with such sound digitizers as FutureSound,™ PerfectSound,™ SilentSound,™ and others allowing you to change the pitch, numeric sampling rate, volume, and octave. It displays the entire waveform for editing and provides special effects such as echo, flange, reverse flange, and low pass filtering. You can also resample internally to any new sampling rate, mix waveforms together, reverse waveforms, and create 5-octave instruments. AudioMaster uses as much expansion memory as you can provide (up to 9.5 MB) for extra long samples, and of course, it's completely IFF and RFF compatible.

Aegis Sonix™

Interactive Musician's
System for the Amiga

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Make your Amiga sing!

Sonix turns the Amiga into a powerful multi-voice digital synthesizer. It contains a visual waveform editor that previously was only available on expensive professional studio equipment. Sonix is also a music program for creating custom analog instruments and sounds, printing sheet music, composing, and controlling MIDI-compatible instruments. Because Sonix uses the IFF ".smus" format, it is compatible with other music programs that may not have Sonix's sound creation capabilities.

Model 500 (left) for the Amiga 500 and 2000. Model 1000 (right) for the Amiga 1000.

The best value in sound digitizers for the Amiga! Record your favorite sounds IN STEREO, both channels simultaneously! Play them back faster or slower, even backwards! Perfect Sound lets you graph, then cut and paste recorded sounds to each other for dynamic sound effects. Use Perfect Sound to create IFF instruments.

Ports of Call

*Interactive Strategy
and Action*

AEGIS
INTERACTIVE
ENTERTAINMENT

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

In this complex economic and strategic simulation you are both the ship owner and ship's captain of a fledgling shipping fleet. As the ship owner, you must be a financial wizard who's willing to take risks. As the ship's captain, you must show exceptional expertise while maneuvering your freighter. In development for over a year, extensive research was conducted for the game by the programmers on location at shipyards around the world. Written by Rolf-Dieter Klein and Martin Ulrich with graphics by Jim Sachs and Richard LaBarre, *Ports of Call* is a challenging game of skill and mental calculation.

Gridiron!®

*The Football
Simulator*

BETHESDA SOFTWARE

Bethesda Softworks Division
P.O. Box 1665
9208 Burning Tree Rd.
Bethesda, MD 20817
(301) 469-7061

Feel the excitement as you sit on the edge of your seat! *GRIDIRON!* is the most realistic football simulation ever created for a microcomputer. Call a play from the Playbook or create your own. *You* control the action with five difficulty levels, real-time graphics, digitized stereo sound and an unprecedented level of game interaction. Winner of *Commodore Magazine's* "Best of 1987" award and *Family Computing's* "Best Sports Simulation of 1987," *GRIDIRON!* is *the* football game for your Amiga.

(215) 431-9100

\$49.95 suggested retail

Talk about a split personality. You're a physics professor gone mad. Your ego has split four ways: a muscleman, a mathematical whiz kid, a fantasy creature, and a beautiful water nymph. Together, all four of you combine your resources to journey through the mind and make it whole again.

Dungeon Master

FTL Games
6160 Lusk Blvd. Suite C-206
San Diego, CA 92121
(619) 453-5711

\$39.95 suggested retail
512K Required

Step into the world of Dungeon Master and see fantasy come to life. Set in the depths of the mysterious underground, Dungeon Master puts you *inside* the most detailed dungeon ever created in software. Choose your companions carefully, because you'll need strong fighters and powerful magicians to survive the intricate puzzles and cunning traps hidden inside. Live the fantasy with FTL.

Roadwars

by Arcadia

Distributed by Electronic Arts
Order today: (800) 448-8822
Retail price \$34.99

The Battlesphere. An infinitely maneuverable, ultimately invincible interplanetary tank. The only vehicle that can clear the endless space highways circling the moons of the planet Armageddon. Your mission: clear the roads of killer sparks, spikes, barriers, vicious aliens, and rogue space stations. Detailed 3D full color graphics put you and a friend right into the action. Two modes of battlesphere operation: OPEN for blasting attackers and CLOSED for smashing through barricades without a scratch.

The Awesome Arcade Action Pack

(Volume 1)
by Arcadia

Distributed by Electronic Arts
Order today: (800) 448-8822
Retail price \$49.99

3 classic coin-op games in 1 awesome package. All 3 games feature detailed 3D scrolling graphics and state-of-the-art music and sound effects. Pilot your saucer craft or fighter jet through 4 sectors and 16 zones of obstacles, rewards and intelligent aliens in XENON, a fast-moving, vertically scrolling strategic shoot-'em-up. BLASTA BALL, the sport of the future, uses a laser cannon to blast the ball to center court. It's 3613 and you are playing ball against the cunning intelligence of another ship. In SIDEWINDER, fly your craft through the vast 3D, top-down scrolling interior of the deadly Star Killer space cruiser which has come to obliterate your sun.

Ferrari Formula One Grand Prix Racing Simulation™

by Rick Koenig

Electronic Arts
1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

Strap yourself behind the wheel of a \$350,000 Ferrari Formula One and race a full season on the international Grand Prix circuit. You'll compete against seven of the world's best drivers on 16 famous tracks like Monaco, Rio, and Budapest. Between races, test your car and your skills on Ferrari's legendary Fiorano test track. Use the dyno room and wind tunnel to fine-tune your suspension, engine systems, tires, fuel mixtures, gearing, and aerodynamics. Try for pole position in practice, warm-up, and qualifying heats. Explode through the straightaways and scream through the turns as you race toward the world championship. The most accurate racing simulation ever created for a personal computer!

F/A-18 Interceptor™

Electronic Arts
1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

Interceptor, the only flight simulator designed especially to take advantage of the Amiga's graphics and sound capabilities, with a frame rate so fast that no other flight simulator belongs in the same airspace. So easy to handle that you can immediately begin flying the carrier-based F-18 or the land-based F-16 on any of the combat or training missions and so realistic that every Navy pilot will wish that they had an Amiga. Coming Spring 1988.

THE HUNT FOR RED OCTOBER

Datasoft®

19808 Nordhoff Place
Chatsworth, CA 91311
(818) 886-5922

As Captain of Russia's newest state-of-the art sub your goal is to cross the Atlantic and rendezvous with the American Navy. The Russians will do anything they can to keep your boat from falling into U.S. hands.

Maps, sonar sweeps, periscope and recognition charts make your escape easier, but using them may also give away your position. Some tough decisions will be yours as you become more proficient in submarine captaincy.

Skyfox II

EA
ELECTRONIC ARTS

1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

The long awaited sequel to the mega-hit Skyfox is here. At warp speed, Skyfox II continues the battle for the Federation into the deep, dark space of the Cygnus Constellation. As a Federation WarpWarrior, you'll pilot the Skyfox II in seven dangerous and challenging missions. Blast your way through asteroid fields at warp-speed and reduce the enemy to stardust with your arsenal of invincible weapons. Incredible speed, smoothness and 3-D flying make Skyfox II the ultimate space fighter for your Amiga.

Earl Weaver Baseball

by

*Eddie Dombrower
and Earl Weaver*

When we set out to make the best baseball game ever, we went straight to the source: Earl Weaver, modern baseball's winningest manager. Here's real baseball excitement for the action and strategy fan. More stats than the Sunday sports page. Better graphics, action and special effects than network play-off coverage. Complete with 26 real big-league ball parks that you can modify to best suit your team. Play against a friend, or take on Earl Weaver himself with computing's most sophisticated baseball A.I. ever. Control and manage all the big league talent from past and present (optional team and season data disks available) or choose the managerial simulation that puts you right in the dugout. Special effects like digitized speech, changing wind effects, even slo-mo instant replays make this one game that really takes advantage of the power of the Amiga. Earl Weaver Baseball, the new standard in sports software — a legend in the making.

Gone Fish'n: *Interstel*

ELECTRONIC ARTS™

1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

Grab your rod and reel and head for the lake in this first-ever bass fishing simulation. GONE FISH'N includes everything you need for a day of fishing: a boat, electric and outboard motors, a depthfinder, maps, rod and reel, 16 lures — everything but the cooler! Plan your fishing week with weather and fishing reports, then choose one of eight lakes to fish in. There are three-day tournaments, and even a Bass Fishing Hall of Fame.

Empire: *Interstel*

ELECTRONIC ARTS™

1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

The ultimate strategic wargame! EMPIRE puts you in command of land, air, and sea forces in this simulation of global conflict, conquest, and empire building. Venture into unknown territory and seek out the enemy, capturing cities and producing additional forces along the way. Be careful — in this war, there can be only one winner. With millions of worlds to conquer, you can hone your strategic skills to razor sharpness. WARNING: EMPIRE is highly addictive!

Alien Fires — 2199 A.D.

Paragon

ELECTRONIC ARTS

1820 Gateway Drive
San Mateo, CA 94404
(415) 571-7171

Enter the mysterious world of **Alien Fires — 2199 A.D.**, a futuristic science fiction role playing adventure game where you assume the role of a Time Lord on a dangerous quest to find and seize an insane genius hell bent on destroying time. On your quest you will meet over 40 exotic aliens who may be friendly or could engage you in combat to the death.

Game features include a professionally composed and digitized rock soundtrack, advance scrolling 3-D graphics, sophisticated character interaction, and speech synthesis. **Alien Fires — 2199 A.D.** combines the strategy of a role playing game with imaginative science fiction and state of the art computer animation.

Can you survive the challenging world of Alien Fires and save the fabric of time?

Silent Service® MICROPROSE Simulation • Software

The Submarine Simulation

Silent Service takes you racing through the dangerous waters of WWII's South Pacific, stalking and attacking enemy convoys! Careful strategic planning mixes with heart-pounding action as you, the submarine captain, make all the critical decisions. Use the conning tower, bridge and engine room to plot your offensive...then watch the explosive results through the periscope and on maps, gauges and damage screens. The detail and realism of Silent Service has earned it top awards as "best computer simulation."

Head Coach Pro Football Game

MICROSEARCH
"Your Personal Computer Store"

MicroSearch Inc.
9896 Southwest Freeway
Houston, TX 77074
(713) 988-2818

Suggested Retail \$49.95

So, you want to coach a Pro Football team. Head Coach lets you call the plays the same way a Pro Coach calls them. The easy to use Standard Playbook gets you up and running, fast. Switch to the Detail Mode, turn off the 30 second clock, and match wits with your opponent, or the computer, much like a chess game. Specify pass routes, backfield formation, trap blocks, even audibles, setting the strategy for those exciting long drives toward your opponent's endzone. Plays' results are based on professional football statistics. Customize team names, players' names and abilities, jersey colors, playbooks, even weather conditions. Head Coach, it's addictive... and legal!

Phantasie III: The Wrath of Nikademus

Strategic Simulations, Inc.
1046 North Rengstorff Ave.
Mountain View, CA 94043
(415) 964-1353

\$39.95 suggested retail

Phantasie III: The Wrath of Nikademus is much more than a sequel to the best-selling Phantasie.™ It is a fantasy adventure game far greater in scope, complexity, and challenge.

This pivotal game boasts a number of new and improved features. Bows and arrows and ever more potent spells have been added to the long list of weapons. During combat, you can move each character to the front, middle, or back of the party. You can also aim your spells at different ranks of the enemy. You determine which skills an individual character should improve on as he gains experience. Wounds are specified by body location and extent of injury.

Flight Simulator II

subLOGIC
Corporation

SubLOGIC Corporation
713 Edgebrook Drive
Champaign, IL 61820
(217) 359-8482

\$49.95 on disk
Joystick optional

Put yourself in the pilot's seat of a Cessna 182 single-engine aircraft! Or fly a Gates Learjet. High speed 3D graphics provide a spectacular panoramic view as you practice takeoffs, landings, and acrobatics. Flight Simulator II includes over 120 airports in five scenery areas. Additional Scenery Disks are also available. A special multiplayer option lets two players using separate machines fly with each other via the serial port connectors.

Jet

subLOGIC
Corporation

SubLOGIC Corporation
713 Edgebrook Drive
Champaign, IL 61820
(217) 359-8482

\$49.95 on disk
Joystick optional

Fly an F-16 Fighting Falcon, one of the most advanced tactical fighter aircraft in the world. Or climb into the cockpit of a carrier-based F-18 Hornet, the Navy's newest multi-role jet fighter. Jet offers a variety of target-strike or dogfight options to test your skills under different combat conditions. A multiplayer option lets two players using separate machines dogfight with each other via the serial port connectors. Additional Scenery Disks are available.

Easy!

Anakin

Research Inc.

Easy! is a 1024 x 1024 pixel pressure-sensitive digitizing tablet with an 8.5 in. by 13 in. drawing surface. The artist, designer, or animator uses an ordinary pencil or pen to draw images on paper into all popular paint, CAD, and animation packages on the Amiga. Frame buttons simulate mouse buttons, making the tablet useable as a mouse substitute for any Amiga software package utilizing the mouse. The frame can accommodate pegs for positioning of punched paper. Source available. Available for A500, A1000, A2000 machines.

CSA's New 68030 "Over 030" Board

CSA

Computer System Associates Inc.
7564 Trade Street
San Diego, CA 92121
(619) 566-3911

CSA, the award winning manufacturer of the Amiga 1000 "Hurricane" Expansion Chassis, now brings you the 68030. CSA's "Over 030" board fits directly into CSA's 68020/68881 CPU board for the Amiga 2000, and internal boards for the A500 and A1000.

Also available:

- 32 bit 14MHz DRAM, up to 32MB per board
- SCSI interface cards for CSA hard drives, tape streaming drives, and WORM drives
- 68882 co-processors running at up to 25MHz

Amiga 500 Memory Expansion

CMI Creative Microsystems Inc.

Creative Microsystems Inc.
10110 S.W. Nimbus B-1
Tigard, OR 97223
(503) 684-9300

Creative Microsystem's Amiga 500 memory expansion card provides a quick way to increase your computer's memory to a full one megabyte. Easily installed in your computer's internal expansion slot, the additional 512K of RAM gives your machine the elbow room it needs for advanced graphics and sound applications. Also, a battery-backed up clock/calendar updates your system time via the standard Amiga system software.

Please call for information on our growing line of Amiga peripheral products.

VI Series of Video Interface

CMI Creative Microsystems Inc.

Creative Microsystems Inc.
10110 S.W. Nimbus B-1
Tigard, OR 97223
(503) 684-9300

The Creative Microsystem's VI-500 and VI-2000 video interfaces provide a variety of high quality video output signals for use with virtually any type of monitor or video recorder.

The unit provides NTSC composite video for use with any composite monitor, VHS or Beta VCR, separated CHROMA/LUMA outputs for Commodore 1700, 1800 or 1900 series monitor and SVHS recorders, and an optional RF modulator which allows you to use a standard television.

The IMPACT A2000-SCSI/RAM Controller for the Amiga A2000 is a high performance, autoboot, DMA design controller which IMMEDIATELY OBSOLETEs ALL OTHER A2000 hard disk controllers currently on the market. The IMPACT A2000-SCSI/RAM controller is the FIRST "multi-function" expansion board for the A2000. It offers an easy to install high-performance SCSI controller as well as a 1 MB FAST RAM expansion using a SINGLE SLOT.

"Move your Amiga 2000 into the 21st Century with GVP the *IMPACT PERIPHERAL PEOPLE!*"

Peripherals

A Hurricane equipped Amiga 'Blows Away' a standard Amiga by producing Sculpt 3D images in up to 1/10th of the normal time.

The Hurricane Accelerator Board combines a Motorola 68020 microprocessor and a 68881 math co-processor to make your Amiga up to 40 times faster than an IBM AT® and up to 5 times faster than a VAX 11/780. Get processing speeds you've only dreamed of, while retaining full compatibility with PHASAR, Sculpt 3D, MaxiPlan, AmigaBASIC, and other Amiga Software. The easy to install Hurricane board speeds up your applications even without memory expansions, but for even faster performance add Hurricane's optional 14MHz memory board with up to 4 megabytes of 32-bit dynamic RAM. Works in conjunction with any memory you may already have, except three times as fast.

DIGA!™

Emulation software
for the Amiga

AEGIS

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Diga! combines both sophisticated terminal emulation and telecommunications into one powerful system. VT-52, VT-100, and Tektronix (including graphics) terminal emulations allow high-speed communications with mini and mainframe computers. Diga! has been designed to make communications fast and easy. The exclusive Doubletalk™ mode allows two Amiga users to simultaneously transfer data or program files in both directions while chatting via keyboard — all using one phone line and a standard 300, 1200 or 2400 bps modem. So get connected — with Diga!

X-CAD Designer™

Haitex Resources
208 Carrollton Park, Ste. 1207
Carrollton, TX 75006
(214) 241-8030

X-CAD Designer is a full-featured professional two-dimensional design and drafting tool valuable for draftsmen, designers, and engineers alike. Easy to use and learn, the system can be driven entirely using the mouse and screen menus. Too many powerful features to list in this space, but here is a sampling: ■ Point, line, string, arc, ellipse, spline, polygon, cross-hatch and, text graphics primitives ■ User-definable symbol libraries ■ Auto dimensioning ■ User-definable fonts ■ Group modification commands ■ Incredibly fast display rate—3000 lines per second from a database of 64,000 lines ■ 256 layers and 8 depths.

List Price: \$599.95

required
Developed by Cad-Vision for Taurus
Impex, Ltd.

X-Specs 3D™

List Price \$139.95
Compatible with Amiga 500, 1000, and
2000 joystick port #2

X-Specs 3D delivers a new dimension to graphics — the third dimension. This pair of liquid crystal shutter spectacles enables the Amiga to display images with the natural realism of human vision — stereoscopic vision. With X-Specs, graphic objects appear to reach out far beyond the computer screen with lifelike reality. To add new depth to CAD/CAM, molecular modeling, solids modeling, and presentations. To play games with more realism than ever imaginable. Easy installation requires plugging interface into joystick port and booting with included software. Amiga owners have advanced from mono sound to stereo sound; now they can advance from mono vision to stereoscopic vision.

Aegis Draw Plus™

Desktop Design Software
for the Amiga

AEGIS

Aegis Development Inc.
2210 Wilshire Blvd.
Santa Monica, CA 90403
(213) 392-9972

Aegis Draw Plus provides a powerful set of professional design tools in a software system that's as easy to learn as a paint program while providing state-of-the-art micro CAD performance. It makes full use of the Amiga environment with pull-down menus, multiple windows and screen resolutions, mouse or keyboard input, and much more. Draw Plus is filled with tools and functionality that make it by far the best buy in desktop design software.

Programming Tools

LogicWorks

Capilano Computing
545 - 108 NE, Suite 6
Bellevue, WA 98004
(604) 669-6343

LogicWorks
\$299.95
LogicWorks
(Educational version)
\$99.95

LogicWorks was created for hardware designers, students and teachers who need to create, test and document digital circuits. Drawing circuit diagrams is made easy by menus of standard and user-definable symbols for logic devices with an easy-to-use drawing interface. The simulation capability allows the user to detect design errors before they are wired into a real circuit. All functions are mouse-controlled, the keyboard being used only to place a device or signal name on the diagram.

Quarterback

Central Coast Software
268 Bowie Drive
Los Osos, CA 93402
(805) 528-4906

\$69.95 suggested retail

QUARTERBACK is a *very* fast hard disk to floppy backup utility supporting all AmigaDOS compatible hard drives on all Amigas. *QUARTERBACK* is second to none in speed, features, and ease of use. It uses two floppy drives for backup, provides full/sub-directory/individual file backup/restore, performs incremental backup based on file date or archive bit, automatically formats and sequentially numbers diskettes, restores date/time stamp, file notes, and protection bits, and accepts batch commands.

Programming Tools

Lattice, Incorporated

(312) 916-1600

Lattice AmigaDOS C Development System

Version 4.0
Price: \$375.00

Lattice C has been the choice of professional programmers because of its superior quality, unmatched versatility, and extensive third-party support products and libraries. Now Lattice provides everything you need for an efficient, professional programming environment in one complete package. The Lattice AmigaDOS C Development System is made up of the Lattice C Compiler Companion, LSE, the Lattice Screen Editor, and the Metadigm MetaScope Debugger. It is a versatile development system for creating Amiga programs ranging from low-level system software tools to completely integrated applications. And with every Lattice product, you get a 30-day money-back guarantee plus unparalleled service and technical support.

Benchmark is a trademark of Oxxi, Inc.
Aztec 'C' is a registered trademark of
Manx Software Systems

Benchmark offers one of the easiest to use development environments available on the Amiga. The integrated Compiler, Editor and Linker can each be accessed with a function key. Full documentation with on-line reference available on menus as well as source code demo programs. Compile speeds average 10,000 lines per minute with burst speeds of 30,000 lines per minute, with resultant program optimized to be similar to programs written under Aztec C. Fast cross-reference utility. Three Add-on libraries offer specialized functions and sample routines.
